Find us in the most beautiful city in Europe!

Cracow is Polish capital of the culture and one of the most accessible cities of Europe. The historical character of the town has been enriched on modern development, making the city attractive to visitors. All the more that Cracow has the best tourist base in Poland.

The Main Market Square and the network of streets that make up the Old City were set out in 1257 when the city was founded. The dimensions of this largest Medieval square in Europe are 200 m by 200 m. Its size and authentic architectural and urban layout, preserved to this day, make it a unique place in the world. Particularly noteworthy are the Clothes Hall, the lone tower of the town hall and St. Mary’s Church with its spired towers. Nightlife flourishes in the Main Market Square area as this is a city of over 200,000 students.

The Wawel Castle is the most famous building in Cracow. The interiors of the castle: royal chambers, a collection of eastern art and war trophies, a unique collection of Flemish tapestries are especially worth visiting. The massive Sigismund Bell tolls only on the occasion of the most important events for the nation and the city. It is worthwhile to walk within the castle’s walls to see the rare beauty of the arcaded courtyard and the cathedral, and to take a look at the Vistula River.

In the past Kazimierz was a separate town, but today it is a district of the city. Kazimierz is known through its workshops, lectures and exhibitions, the world famous Festival of Jewish Culture, organized ever since the beginning of the 1990s. It is the place, where exclusive hotels and restaurants are located alongside handicraft workshops.

The city has many beautiful spots from where its panorama can be admired. The most important and best known is the Kościuszko Mound, raised as a symbol of aspirations for independence for Poles. Other two mounds - the Krakus Mound in Podgórze and the Wanda Mound in Nowa Huta - are mysterious barrows from pre-Christian times. Błonia are another of Cracow’s attractions. This is a huge flat meadow, functioning as a recreational area and a meeting place. Papal masses attended by John Paul II brought over one million followers here.
Our Faculty gained over 70 years of experience in teaching and training at the university level. We offer degree programs in Civil Engineering (in both Polish and English language), Transportation Engineering and Spatial management (the last one jointly with other faculties). Our Faculty is ranked among the top civil engineering faculties in Poland. Our programs (Civil Engineering and Transportation Engineering) have been approved by the State Commission for Accreditation. In 2016 the Faculty gained the prestigious accreditation of the Accreditation Board for Technical Universities - KAUT.

The Civil Engineering Faculty may be counted among the largest faculties of the Cracow University of Technology in terms of the faculty and staff quality and number as well as in terms of the student number. Altogether over 4000 students follow courses at our Faculty. We offer several specializations providing all students with opportunities to study topics of their interest in greater depth. Our students get an excellent engineering training in classes taught by renowned academic staff and benefit from many modern laboratories. Selected students may complete a part of their studies at foreign universities supported by the Erasmus+ exchange program.

At present our Faculty cooperates bilaterally with more than 50 universities all over Europe. Our graduates are competitive, have good employment opportunities and are qualified to apply for the European Engineer title.
